### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### **1.1 Product identifier**

on use

| Trade name                         | : | MOBIHEL GLASSFIBRE PUTTY |
|------------------------------------|---|--------------------------|
| Product code                       | : | 40090302                 |
| Unique Formula Identifier<br>(UFI) | : | 4H5H-C1P0-F00A-HX9Y      |

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Use of the Sub-<br>stance/Mixture | : | PC9a Coatings and paints, thinners, paint removers |
|-----------------------------------|---|--|
| Recommended restrictions          | : | Reserved for industrial and professional use.      |

#### 1.3 Details of the supplier of the safety data sheet

| Company                    | : | Helios TBLUS d.o.o.<br>Količevo 65<br>1230 Domžale<br>Slovenia |
|----------------------------|---|--|
| Telephone Company          | : | 386 (1) 722 4383   |
| Telefax Company            | : | 386 (1) 722 4310   |
| Responsible/issuing person | : | 386 (1) 722 4383<br>productsafety@helios.si                    |

#### 1.4 Emergency telephone number

- emergency number (for cases of poisoning, national number like 911)
- The National Poisons Information Centre, Ireland: 01 809 2166

National Emergency Health Line: 999

### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

| Classification (REGULATION (EC) No 1272/2008) |                                    |  |  |  |
|---|------------------------------------|--|--|--|
| Flammable liquids, Category 3                 | H226: Flammable liquid and vapour. |  |  |  |
| Skin irritation, Category 2                   | H315: Causes skin irritation.      |  |  |  |

according to Regulation (EC) No. 1907/2006

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

rately in closed containments. Use a water spray to cool fully closed containers.

### **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, protection | ctive | e equipment and emergency procedures   |
|--------------------------------------|-------|--|
| Personal precautions :               |       | Use personal protective equipment.<br>Remove all sources of ignition.<br>Evacuate personnel to safe areas.<br>Beware of vapours accumulating to form explosive concentra-<br>tions. Vapours can accumulate in low areas.                     |
| 6.2 Environmental precautions        |       |  |
| Environmental precautions :          |       | Prevent product from entering drains.<br>Prevent further leakage or spillage if safe to do so.<br>If the product contaminates rivers and lakes or drains inform<br>respective authorities.   |
| 6.3 Methods and material for co      | ntai  | nment and cleaning up  |
| Methods for cleaning up              | :     | Contain spillage, and then collect with non-combustible ab-<br>sorbent material, (e.g. sand, earth, diatomaceous earth, ver-<br>miculite) and place in container for disposal according to local<br>/ national regulations (see section 13). |

#### 6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

### **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

| Advice on s | safe handling      | : | <ul> <li>Avoid formation of aerosol.</li> <li>Do not breathe vapours/dust.</li> <li>Avoid exposure - obtain special instructions before use.</li> <li>Avoid contact with skin and eyes.</li> <li>For personal protection see section 8.</li> <li>Smoking, eating and drinking should be prohibited in the application area.</li> <li>Take precautionary measures against static discharges.</li> <li>Provide sufficient air exchange and/or exhaust in work rooms.</li> <li>Open drum carefully as content may be under pressure.</li> <li>Dispose of rinse water in accordance with local and national regulations.</li> <li>Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.</li> </ul> |
|-------------|--------------------|---|---|
| Advice on   | protection against | : | Do not spray on a naked flame or any incandescent material.   |

### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No decomposition if stored and applied as directed.

### 10.2 Chemical stability

No decomposition if stored and applied as directed.

#### 10.3 Possibility of hazardous reactions

| Hazardous reactions | : | No decomposition if stored and applied as directed. |
|---------------------|---|---|
|                     |   |   |

Vapours may form explosive mixture with air.

#### **10.4 Conditions to avoid**

Conditions to avoid : Heat, flames and sparks.

according to Regulation (EC) No. 1907/2006

# **MOBIHEL GLASSFIBRE PUTTY**

| Version | Revision Date: | SDS Number:           | Date of last issue: -           |
|---------|----------------|-----------------------|---------------------------------|
| 1.0     | 19.07.2023     | MAT0GA05_065<br>IE/EN | Date of first issue: 19.07.2023 |

#### 10.5 Incompatible materials

Materials to avoid

: Incompatible with strong acids and bases.

#### **10.6 Hazardous decomposition products**

Adequate ventilation is required. Heating can release vapours which can be ignited. Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke).

### **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

| Acute toxicity |  |
|----------------|--|
|----------------|--|

Not classified based on available information.

#### Product:

| Acute inhalation toxicity | : | Acute toxicity estimate: > 20 mg/l<br>Exposure time: 4 h<br>Test atmosphere: vapour<br>Method: Calculation method |  |
|---------------------------|---|---|--|
| Components:               |   |   |  |
| styrene:                  |   |   |  |
| Acute oral toxicity       | : | LD50 Oral (Rat): >= 5,000 mg/kg   |  |
| Acute inhalation toxicity | : | LC50 (Rat): >= 24 mg/l<br>Exposure time: 4 h<br>Test atmosphere: vapour   |  |
| Acute dermal toxicity     | : | LD50 (Rabbit): > 2,650 mg/kg  |  |
| toluene:                  |   |   |  |
| Acute oral toxicity       | : | LD50 Oral (Rat): > 5,000 mg/kg  |  |
| Acute inhalation toxicity | : | LC50 (Rat): > 28 mg/l<br>Exposure time: 4 h<br>Test atmosphere: vapour  |  |
| Acute dermal toxicity     | : | LD50 (Rabbit): > 5,000 mg/kg  |  |
| cobalt(2+) propionate:    |   |   |  |
| Acute oral toxicity       | : | LD50 Oral (Rat): 354.7 mg/kg  |  |
| Acute inhalation toxicity | : | Assessment: The component/mixture is moderately toxic after short term inhalation.                                |  |
| maleic anhydride:         |   |   |  |
| Acute oral toxicity       | : | Assessment: The component/mixture is moderately toxic after   |  |

Marine pollutant : no

#### 14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### 14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.
