SECTION 5. FIREFIGHTING MEASURES

| Suitable extinguishing media | : | Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical |
|---|---|--|
| Unsuitable extinguishing media | : | High volume water jet |
| Specific hazards during fire- fighting | : | Do not allow run-off from fire fighting to enter drains or water courses. |
| Hazardous combustion prod- ucts | : | No hazardous combustion products are known |
| Specific extinguishing meth- ods | : | Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored sepa- rately in closed containments. Use a water spray to cool fully closed containers. |
| Special protective equipment | : | In the event of fire, wear self-contained breathing apparatus. |

| Version 1.1 | Revision Date: 22.05.2024 | | Number: 000479002 N | Date of last issue: 16.11.2023 Date of first issue: 16.11.2023 | | |

| tive | Personal precautions, protec- : tive equipment and emer- gency procedures | | Remove all sou Evacuate perso Beware of vapo | rotective equipment. Irces of ignition. Innel to safe areas. Innel to safe areas. Inne accumulating to form explosive concentra- can accumulate in low areas. | | |
| Env | Environmental precautions : | | Prevent further If the product c | Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities. | | |
| | Methods and materials for containment and cleaning up | | Contain spillage, and then collect with non-combustible ab- sorbent material, (e.g. sand, earth, diatomaceous earth, ver- miculite) and place in container for disposal according to local / national regulations (see section 13). | | | |
| SECTIO | N 7. HANDLING AND | STOR | AGE | | | |
| | Advice on protection against fire and explosion | | Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from open flames, hot surfaces and sources of ignition. | | | |
| Adv | Advice on safe handling | | Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the a plication area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work root Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and nationaregulations. Persons susceptible to skin sensitisation problems or asthra allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used. | | | |

| Hygiene measures | : When using do not eat or drink. |
|------------------|---|
| | When using do not smoke. |
| | Wash hands before breaks and at the end of workday. |
| | |

Conditions for safe storage : No smoking.

STOT - repeated exposure

Components:

reaction mixture of ethylbenzene, m-xylene and p-xylene:

Assessment

: May cause damage to organs through prolonged or repeated

Date of last issue: 16.11.2023 Date of first issue: 16.11.2023

exposure.

Aspiration toxicity

Components:

Hydrocarbons, C9 aromatics: May be fatal if swallowed and enters airways.

reaction mixture of ethylbenzene, m-xylene and p-xylene:

May be fatal if swallowed and enters airways.

Solvent naphtha (petroleum), light arom.; Low boiling point naphtha -unspecified:

May be fatal if swallowed and enters airways.

Further information

Product:

Remarks

 Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.
 Concentrations substantially above the TLV value may cause narcotic effects.
 Solvents may degrease the skin.

SECTION 12. ECOLOGICAL INFORMATION
