### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

| Classification (REGULATION (EC) No 127 | /2/2008)                                       |
|--|--|
| Flammable liquids, Category 2          | H225: Highly flammable liquid and vapour.      |
| Eye irritation, Category 2             | H319: Causes serious eye irritation.           |
| Skin sensitisation, Category 1         | H317: May cause an allergic skin reaction.     |
| Carcinogenicity, Category 2            | H351: Suspected of causing cancer.             |
| Reproductive toxicity, Category 2      | H361d: Suspected of damaging the unborn child. |

### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

### **SECTION 6:** Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

| Personal precautions :        | Use personal protective equipment.<br>Ensure adequate ventilation.<br>Remove all sources of ignition.<br>Evacuate personnel to safe areas.<br>Beware of vapours accumulating to form explosive concentra-<br>tions. Vapours can accumulate in low areas. |
|-------------------------------|--|
| 6.2 Environmental precautions |  |
| Environmental precautions :   | Prevent product from entering drains.<br>Prevent further leakage or spillage if safe to do so.<br>If the product contaminates rivers and lakes or drains inform<br>respective authorities.   |

### 6.3 Methods and material for containment and cleaning up

| Methods for cleaning up | : | Contain spillage, and then collect with non-combustible ab-      |
|-------------------------|---|--|
|                         |   | sorbent material, (e.g. sand, earth, diatomaceous earth, ver-    |
|                         |   | miculite) and place in container for disposal according to local |
|                         |   | / national regulations (see section 13).                         |

### 6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

# **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

| Advice on s                 | safe handling                 | :    | Avoid formation of aerosol.<br>Do not breathe vapours/dust.<br>Avoid exposure - obtain special instructions before use.<br>Avoid contact with skin and eyes.<br>For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the ap-<br>plication area.<br>Take precautionary measures against static discharges.<br>Provide sufficient air exchange and/or exhaust in work rooms.<br>Open drum carefully as content may be under pressure.<br>Dispose of rinse water in accordance with local and national<br>regulations.<br>Persons susceptible to skin sensitisation problems or asthma,<br>allergies, chronic or recurrent respiratory disease should not<br>be employed in any process in which this mixture is being<br>used. |
|-----------------------------|-------------------------------|------|--|
| Advice on p<br>fire and exp | protection against<br>blosion | :    | Do not spray on a naked flame or any incandescent material.<br>Take necessary action to avoid static electricity discharge<br>(which might cause ignition of organic vapours). Use only<br>explosion-proof equipment. Keep away from open flames, hot<br>surfaces and sources of ignition.   |
| Hygiene me                  | easures                       | :    | When using do not eat or drink. When using do not smoke.<br>Wash hands before breaks and at the end of workday.  |
| 7.2 Conditions              | for safe storage, i           | nclı | uding any incompatibilities  |
|                             | nts for storage               | :    | No smoking. Keep container tightly closed in a dry and well-<br>ventilated place. Containers which are opened must be care-<br>fully resealed and kept upright to prevent leakage. Observe<br>label precautions. Electrical installations / working materials<br>must comply with the technological safety standards.  |
| Further info                | ormation on stor-<br>y        | :    | No decomposition if stored and applied as directed.  |
| 7.3 Specific end            | d use(s)                      |      |  |
| Specific use                |                               | :    | For further information, refer to the product technical data sheet.  |
|                             |                               |      | Consult the technical guidelines for the use of this sub-<br>stance/mixture.   |

### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No decomposition if stored and applied as directed.

#### 10.2 Chemical stability

No decomposition if stored and applied as directed.

### 10.3 Possibility of hazardous reactions

Hazardous reactions : No decomposition if stored and applied as directed.

Vapours may form explosive mixture with air.

#### 10.4 Conditions to avoid

Conditions to avoid : Heat, flames and sparks.

### 10.5 Incompatible materials

Materials to avoid : Incompatible with strong acids and bases.

#### **10.6 Hazardous decomposition products**

Adequate ventilation is required. Heating can release vapours which can be ignited. Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke).

### **SECTION 11: Toxicological information**

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

Not classified based on available information.

#### Product:

| Acute inhalation toxicity | : | Acute toxicity estimate: > 20 mg/l<br>Exposure time: 4 h |
|---------------------------|---|--|
|                           |   | Test atmosphere: vapour                                  |
|                           |   | Method: Calculation method                               |

#### **Components:**

### Hexamethylene-di-isocyanate, polymer:

| Acute inhalation toxicity | : | Assessment: The component/mixture is moderately toxic after short term inhalation. |
|---------------------------|---|--|
|                           |   |  |

### ethyl acetate:

Acute oral toxicity : LD50 Oral (Rat): >= 5.620 mg/kg

according to Regulation (EC) No. 1907/2006

### 4-isocyanatosulphonyltoluene:

Assessment : May cause respiratory irritation.

:

### STOT - repeated exposure

Not classified based on available information.

#### **Components:**

#### toluene:

Assessment

May cause damage to organs through prolonged or repeated exposure.

#### Aspiration toxicity

Not classified based on available information.

### **Components:**

toluene:

May be fatal if swallowed and enters airways.

#### 11.2 Information on other hazards

### **Endocrine disrupting properties**

#### Product:

| Assessment | : | The substance/mixture does not contain components consid-<br>ered to have endocrine disrupting properties according to<br>REACH Article 57(f) or Commission Delegated regulation<br>(EU) 2017/2100 or Commission Regulation (EU) 2018/605 at<br>levels of 0.1% or higher. |
|------------|---|---|
|            |   |   |

#### **Further information**

#### Product:

Remarks:Symptoms of overexposure may be headache, dizziness,<br/>tiredness, nausea and vomiting.<br/>Concentrations substantially above the TLV value may cause<br/>narcotic effects.<br/>Solvents may degrease the skin.

### **SECTION 12: Ecological information**

#### 12.1 Toxicity

#### Components:

n-butyl acetate:

Toxicity to algae/aquatic

: NOEC (Desmodesmus subspicatus (green algae)): > 200 mg/l

### 14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

### 14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

## MOBIHEL 2K HARDENER 750W

Seveso III: Directive 2012/18/EU of the European Parliament and of the Council on the control of major-accident hazards involving dangerous substances.

P5c FLAMMABLE LIQUIDS

Volatile organic compounds : Directive 2010/75/EU of 24 November 2010 on industrial emissions (integrated pollution prevention and control) Volatile organic compounds (VOC) content: 61,48 %

#### Other regulations:

Take note of Directive 92/85/EEC regarding maternity protection or stricter national regulations, where applicable.

Take note of Directive 94/33/EC on the protection of young people at work or stricter national regulations, where applicable.

#### 15.2 Chemical safety assessment

A Chemical Safety Assessment is not required for this substance.
