### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier								
Trade name	: MOBIHEL 2K HARDENER 1100							
Product code	: 41672261							
1.2 Relevant identified uses of	he substance or mixture and uses advised against							
Use of the Sub- stance/Mixture	: PC9a Coatings and paints, thinners, paint remover	S						
Recommended restrictions on use	: Reserved for industrial and professional use.							
1.3 Details of the supplier of the	1.3 Details of the supplier of the safety data sheet							
Company	<ul> <li>KANSAI HELIOS Slovenija d.o.o.</li> <li>Količevo 65</li> <li>1230 Domžale</li> <li>Slovenia</li> </ul>							
Telephone Company	: 386 (1) 722 4383							
Telefax Company	: 386 (1) 722 4310							
Responsible/issuing person	: 386 (1) 722 4383 productsafety@kansai-helios.si							

### 1.4 Emergency telephone number

Instituto Nacional de Toxicología y Ciencias Forenses Servicio de Información Toxicológica + 34 91 562 04 20

## **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

### Classification (REGULATION (EC) No 1272/2008)

Flammable liquids, Category 3 Acute toxicity, Category 4 Skin sensitisation, Category 1 Specific target organ toxicity - single exposure, Category 3, Central nervous system Specific target organ toxicity - single exposure, Category 3, Respiratory system

H317: May cause an allergic skin reaction. H336: May cause drowsiness or dizziness.

H226: Flammable liquid and vapour.

H332: Harmful if inhaled.

H335: May cause respiratory irritation.

according to Regulation (EC) No. 1907/2006

# MOBIHEL 2K HARDENER 1100

Version 1.0	Revision Date: 27.11.2023		Number: 000416722 N	Date of last issue: - Date of first issue: 27.11.2023

### **Additional Labelling**

EUH204 Contains isocyanates. May produce an allergic reaction.

### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures General advice Move out of dangerous area. : Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended. If inhaled : Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice. In case of skin contact If skin irritation persists, call a physician. : If on skin, rinse well with water. If on clothes, remove clothes. Flush eyes with water as a precaution. In case of eye contact Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist. If swallowed 2 Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital. 4.2 Most important symptoms and effects, both acute and delayed Risks May cause an allergic skin reaction. Harmful if inhaled. May cause respiratory irritation. May cause drowsiness or dizziness. Repeated exposure may cause skin dryness or cracking.

### 4.3 Indication of any immediate medical attention and special treatment needed

Treatment : Treat symptomatically.

## **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media

Suitable extinguishing media : Alcohol-resistant foam

# MOBIHEL 2K HARDENER 1100

## **SECTION 6:** Accidental release measures

6.1 Personal precautions, prote	ctive equipment and emergency procedures
Personal precautions	<ul> <li>Use personal protective equipment. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentra- tions. Vapours can accumulate in low areas.</li> </ul>
6.2 Environmental precautions	
Environmental precautions	<ul> <li>Prevent product from entering drains.</li> <li>Prevent further leakage or spillage if safe to do so.</li> <li>If the product contaminates rivers and lakes or drains inform respective authorities.</li> </ul>
6.3 Methods and material for co	ntainment and cleaning up

Methods for cleaning up	:	Contain spillage, and then collect with non-combustible ab-
		sorbent material, (e.g. sand, earth, diatomaceous earth, ver-
		miculite) and place in container for disposal according to local
		/ national regulations (see section 13).

### 6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

according to Regulation (EC) No. 1907/2006

## **SECTION 7: Handling and storage**

7.1	Precautions for safe handling	g	
	Advice on safe handling	:	Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the ap- plication area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.
	Advice on protection against fire and explosion	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from open flames, hot surfaces and sources of ignition.
	Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
7.2	Conditions for safe storage, i	incl	uding any incompatibilities
	Requirements for storage areas and containers	:	No smoking. Keep container tightly closed in a dry and well- ventilated place. Containers which are opened must be care- fully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.
	Further information on stor- age stability	:	No decomposition if stored and applied as directed.
7.3	Specific end use(s)		
	Specific use(s)	:	For further information, refer to the product technical data sheet.
			Consult the technical guidelines for the use of this sub- stance/mixture.

## **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No decomposition if stored and applied as directed.

#### 10.2 Chemical stability

No decomposition if stored and applied as directed.

### 10.3 Possibility of hazardous reactions

Hazardous reactions	:	No decomposition if stored and applied as directed.

Vapours may form explosive mixture with air.

#### 10.4 Conditions to avoid

Conditions to avoid : Heat, flames and sparks.

# **MOBIHEL 2K HARDENER 1100**

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	27.11.2023	MAT000416722 ES/EN	Date of first issue: 27.11.2023

### 10.5 Incompatible materials

Materials to avoid

: Incompatible with strong acids and bases.

#### **10.6 Hazardous decomposition products**

Adequate ventilation is required. Heating can release vapours which can be ignited. Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke).

### **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity Harmful if inhaled.		
Product:		
Acute oral toxicity	:	Acute toxicity estimate: > 2.000 mg/kg Method: Calculation method
Acute inhalation toxicity	:	Acute toxicity estimate: 19,11 mg/l Exposure time: 4 h Test atmosphere: vapour Method: Calculation method
Acute dermal toxicity	:	Acute toxicity estimate: > 2.000 mg/kg Method: Calculation method
Components:		
Hexamethylene-di-isocyana	ate,	polymer:
Acute inhalation toxicity	:	Assessment: The component/mixture is moderately toxic after short term inhalation.
n-butyl acetate:		
Acute oral toxicity	:	LD50 Oral (Rat): >= 10.760 mg/kg
Acute dermal toxicity	:	LD50 (Rabbit): >= 5.000 mg/kg
2-butoxyethyl acetate:		
Acute oral toxicity	:	Assessment: The component/mixture is moderately toxic after single ingestion.
		LD50 Oral (Rat): >= 2.400 mg/kg
Acute inhalation toxicity	:	LC50 (Rat): >= 50 mg/l Exposure time: 2 h Test atmosphere: vapour
Acute dermal toxicity	:	Assessment: The component/mixture is moderately toxic after single contact withskin.
