SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

Components

Chemical name	CAS-No.	Concentration (% w/w)
Hexamethylene diisocyanate, oligomers	28182-81-2	>= 30 -< 60
n-butyl acetate	123-86-4	>= 20 -< 30
reaction mixture of ethylbenzene, m-xylene and	1330-20-7	>= 10 -< 20
p-xylene		
toluene	108-88-3	>= 3 -< 10
solvent naphtha (petroleum), light aromatic	64742-95-6	>= 1 -< 10
dibutyltin dilaurate	77-58-7	< 0.3

SECTION 4. FIRST AID MEASURES

General advice :	Move out of dangerous area. Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended.
If inhaled :	Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice.
In case of skin contact :	If skin irritation persists, call a physician. If on skin, rinse well with water. If on clothes, remove clothes.
In case of eye contact :	Immediately flush eye(s) with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.
If swallowed :	Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.
Most important symptoms : and effects, both acute and delayed	Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation.

Version 1.1	Revision Date: 19.12.2023	SDS N MATO AU/EN	004	nber: 170888	Date of last issue: 16.11.2023 Date of first issue: 16.11.2023

SECTION	5. FIREFIGHTIN	G MEA	SU	RES	
Suita	ble extinguishing	media	:	Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical	
	Unsuitable extinguishing media		:	High volume water jet	
	Specific hazards during fire- fighting		:	Do not allow run-off from fire fighting to enter drains or water courses.	
Haza ucts			:	No hazardous combustion products are known	
Spec ods	Specific extinguishing meth- ods		:	must not be discharge Fire residues and com be disposed of in acco For safety reasons in rately in closed contain	taminated fire extinguishing water must ordance with local regulations. case of fire, cans should be stored sepa
	Special protective equipment for firefighters		:	In the event of fire, wear self-contained breathing apparate	
Hazc	Hazchem Code :		:	•3Y	
SECTION	6. ACCIDENTAL		٩S	EMEASURES	
tive e	Personal precautions, protec- : tive equipment and emer-		:	Use personal protectiv Remove all sources of Evacuate personnel to	f ignition.

tive equipment and emer- gency procedures		Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentra- tions. Vapours can accumulate in low areas.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
Methods and materials for containment and cleaning up	:	Contain spillage, and then collect with non-combustible ab- sorbent material, (e.g. sand, earth, diatomaceous earth, ver- miculite) and place in container for disposal according to local / national regulations (see section 13).

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from open flames, hot surfaces and sources of ignition.
Advice on safe handling	:	 Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
Conditions for safe storage	:	No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.
Further information on stor- age conditions	:	Protect from moisture.
Further information on stor- age stability	:	No decomposition if stored and applied as directed.

Aspiration toxicity

Not classified based on available information.

Components:

reaction mixture of ethylbenzene, m-xylene and p-xylene:

May be fatal if swallowed and enters airways.

toluene:

May be fatal if swallowed and enters airways.

Solvent naphtha (petroleum), light arom.; Low boiling point naphtha -unspecified: May be fatal if swallowed and enters airways.

Further information

Product:

Remarks

 Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.
 Concentrations substantially above the TLV value may cause narcotic effects.
 Solvents may degrease the skin.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods		
Waste from residues	:	The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemi- cal or used container. Send to a licensed waste management company.
Contaminated packaging	:	Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.
