### **SECTION 2. HAZARDS IDENTIFICATION**

GHS Classification Flammable liquids	:	Category 3
Skin sensitisation	:	Category 1
Specific target organ toxicity - single exposure	:	Category 3 (Respiratory system, Central nervous system)
GHS label elements Hazard pictograms	:	
Signal word	:	Warning
Hazard statements	:	H226 Flammable liquid and vapour. H317 May cause an allergic skin reaction. H335 May cause respiratory irritation. H336 May cause drowsiness or dizziness.
Precautionary statements	:	<b>Prevention:</b> P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P233 Keep container tightly closed. P240 Ground and bond container and receiving equipment.

#### **SECTION 4. FIRST AID MEASURES**

# **MOBIHEL 2K HARDENER 1100**

Version 1.1	Revision Date: 27.11.2023	SDS Nur MAT0004 AU/EN		Date of last issue: 16.11.2023 Date of first issue: 16.11.2023
Ger	eral advice	:	Show this saf	angerous area. ety data sheet to the doctor in attendance. he victim unattended.
lf in	haled	:		sician after significant exposure. s, place in recovery position and seek medical
In c	ase of skin contact	:	If on skin, rins	n persists, call a physician. e well with water. remove clothes.
In c	ase of eye contact	:	Remove conta Protect unhar Keep eye wid	
lf sv	vallowed	:	Do not give m Never give an If symptoms p	ory tract clear. ilk or alcoholic beverages. ything by mouth to an unconscious person. persist, call a physician. nmediately to hospital.
	t important sympto effects, both acute yed		None known.	
Note	es to physician	:	Treat sympton	natically.

#### SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media	:	Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	High volume water jet
Specific hazards during fire- fighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion prod- ucts	:	No hazardous combustion products are known
Specific extinguishing meth- ods	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored sepa- rately in closed containments. Use a water spray to cool fully closed containers.

#### SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from open flames, hot surfaces and sources of ignition.
Advice on safe handling	:	<ul> <li>Avoid formation of aerosol.</li> <li>Do not breathe vapours/dust.</li> <li>Avoid exposure - obtain special instructions before use.</li> <li>Avoid contact with skin and eyes.</li> <li>For personal protection see section 8.</li> <li>Smoking, eating and drinking should be prohibited in the application area.</li> <li>Take precautionary measures against static discharges.</li> <li>Provide sufficient air exchange and/or exhaust in work rooms.</li> <li>Open drum carefully as content may be under pressure.</li> <li>Dispose of rinse water in accordance with local and national regulations.</li> <li>Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.</li> </ul>
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
Conditions for safe storage	:	No smoking.

### STOT - repeated exposure

#### **Components:**

#### reaction mixture of ethylbenzene, m-xylene and p-xylene: :

Assessment

May cause damage to organs through prolonged or repeated exposure.

Date of last issue: 16.11.2023 Date of first issue: 16.11.2023

#### Aspiration toxicity

#### **Components:**

Hydrocarbons, C9 aromatics: May be fatal if swallowed and enters airways.

#### reaction mixture of ethylbenzene, m-xylene and p-xylene:

May be fatal if swallowed and enters airways.

#### Solvent naphtha (petroleum), light arom.; Low boiling point naphtha -unspecified:

May be fatal if swallowed and enters airways.

#### **Further information**

#### Product:

Remarks

Symptoms of overexposure may be headache, dizziness, : tiredness, nausea and vomiting. Concentrations substantially above the TLV value may cause narcotic effects. Solvents may degrease the skin.

#### **SECTION 12. ECOLOGICAL INFORMATION**

#### Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### **SECTION 15. REGULATORY INFORMATION**

# Safety, health and environmental regulations/legislation specific for the substance or mix-ture

Standard for the Uniform : Schedule 7 Scheduling of Medicines and Poisons

Prohibition/Licensing Requirements

: There is no applicable prohibition, authorisation and restricted use requirements, including for carcinogens referred to in Schedule 10 of the model WHS Act and Regulations.
